New York, April 9.-Marshal Field, the millionaire head of the big Chiago dry goods firm, was seen by a reporter last night just before he left for home after a tour in the south. He said that business was improving all along the Pue.

A very marked improvement in our trade has set in," said Mr. Field, and we have reason to believe that It will continue to improve. The new tariff is all right. Business is better because there is an increased demand for goods reduced in value by the new tariff schedules. The manufacturers will not suffer; they have sufficient protection under the new law."

WALL STREET. New York, April 9.—The stock mar-ket was even duller today than yesrday. The tone of the dealings was, wever, somewhat firmer and some of the shares traded in show advances on the day. There are a large number of shares which are lower than at the close of yesterday and they include the grangers, most of the coalers and some of the leading industrals.

Pittsburg, April 9.—Oil took another spurt today, and at noon the price had imped to 5.0. This is the highest market price r = 1882. At the opening, the Standard a... anced the price for eash oil 7 cents, by offering \$1.27. On exchange, May options opened at \$1.27. and rapidly advanced to \$1.40 and remained at that. According to the last monthly report, there are only \$50 ertificates for 1,000 barrels each sutstanding, and a Pittsburg firm owns to if of them. The main reason for the at cance is that the producera are not selling direct to the Standard, but are putting their oil into pipe lines and their oil into pipe lines and certificates, thus making on fference between the cash and tive figure.

ket. Sales were on a basis of 4.7596.25 for Ref. Sales were on a basis of 4.525.2 for medium to choice steers weighing from 1.700 to 1.500 pounds, with transactions largely at 5.0056.00, and extra beeves averaging 1.500 to 1.550 pounds were nominal at 6.256.50. A great many fat steers averaging between 1.250 and 1.450 pounds, have been sold within the last few days around 6.00, while steers, no heavier but smoother and choicer, have been picked up at 6.1096.25; cows sold at 1.7564.80, largely at 2.7562.75. ap at 5.1503.75.
HOGS-Receipts did not reach 12.000 head, and prices ruled about steady at yesterday's advances, the best being quoted at 5.40, with the bulk of the sales at

ted at 5.40, with the bulk of the sales at 5.000.5.25.

The most striking feature of the market is a growing demand for choice light hogs, and an increasing tendency to pay higher prices for such droves. At the present time there is a difference of 20c per 100 pounds, being the best light and the best heavy whereas a year ago the difference was only 10c, the choicest heavy seiling at that time at 5.25 and the best light at 5.25.

SHEEP—Only about 7.000 sheep and lambs were received today. Choice 80-pound Colorado fed lambs were selling at 6.10, and sales were made from this figure all the way down to 4.50 for pice years lines. Sheep are selling readily at 4.000 4.55; inferior to medium at 2.4003.30. Most of the sheep coming forward are westerns, but a few choice natives sell now and then around 5.00. Spring lambs, weighing a little over forty pounds, sell for 7.00 per 100 pounds.

As was anticipated would be the case, the handing down of the decision of the supreme court of the United States on the income tax law, in which the declaration is, made that with the exception of the clauses which provide for the taxation of rentals and county, state and municipal bonds, the statute is perfectly constitutional, was followed by a perfect delogo of returns at the offices of the local internal revenue officials. It looked very much as though the prospective taxpayers had had their reports made out some time but did not desire to send them in until the action of the court had been made public. The knocking out of the clauses named necessitated some changes in those reports which had been made out and it therefore became very patent that stockers and feeders, 2.304.0, bulls, 300, 160GS—Receipts, 12,600; shipments, 300, rentals and county, state and municipal Market weak to 5 cents lower; bulk of sales, 4.7064.00; heavies, 4.7064.00; plackers, 4.7064.00; mixed, 4.5064.55; Eght, 4.5064.50; perkers, 4.8064.50; pigs, 4.6064.55; Eght, 4.5064.55; SHEEP—Receipts, 4.606; shipments, 700, Market firm. SHEARING NOW IN PROGRESS.

Delays, However. Down at Lehi shearing has com Down at Lehi shearing has commenced on a limited scale, and it will be some days yet before the great majority of the owners decide to remove the wool from the backs of their sheep. This is on account of the uncertainty of the present weather. There is altogether too much wind for the good of the shorn sheep. These conditions also exist in the Sanpete country, along the line of the Rio Grande Western, where many thousand head of wool-growers are to be clipped this cpring, and it will be in the neighborhood of a week before any extensive shearing will take place in that district. Over the river and in the Toocle country

the shearers are now at work and the corrais at Thompson's are kept full of sheep. In the extreme southern part of the territory shearing is practically over and shipments are being made to Milford. Four loads were yesterday received at that station on the Union Pacific. They were from St. George, and belonged to Asby Snow and William Atkins. Other consignments are to follow from the south at once. Up in Idaho the removal of fleeces is also in full swing, at least such is the case out on the line of the Oregon Short Line, both east and west. There will be some heavy movements from that part of the west within the next few weeks. The owners of Idaho wood are holding for an anticipated advance in the price of their product, but the buyers claim that their ideas are too high.

THE STATUTE.

the buyers claim that their ideas are too high.

J. H. Wood, representing Weston, Whitman & Co. of Boston, made a contract with the Sevier Valley Wool and Live Stock Commission company, for his house, to handle all of the shipments made by the Salina company onto the eastern markets. The Sevier Valley is one of the new corporations, and its business promises to be immense. It is anticipated that having such good connection in the east the company will meet with much success during the season.

NOW TALKING CASH LEASE.

Miller Plant May Go Into the Flouring Combine.

It is highly probable that the millers will yet lease their plant to the Inter-

clauses named necessitated some changes in those caports which had been made out and it therefore became very patent that the revenue to be derived from this territory by the general government through the workings of the income tax law has been very materially reduced, for there are many people whose incomes would come within the limit were rentals but counted in.

There seems to be much doubt, even in the minds of the government officials, as to the effects of the supreme court decision and the chances for the commences consideration of the proposition of consolidation is to take place.

GUNNISON GUANO RECEIVED.

Fertilizer is to Be Sold to Utah Farmers and Gardeners.

Fertilizer is to Be Sold to Utah
Farmers and Gardeners.

The first carload of guano from the deposits on Gunnison islands reached this city yesterday morning and its distribution among the farmers, horticulturists, florists and gardeners of the territory is to commence at once. In fact, two wagon loads of the fertilizer bave already gone south to Lehi, where the guano is to be used in the enriching of the beet lands. The Utah Guano company, the incorporation of the interests of the Ogden locators in the deposits, has decided to send out a good live man throughout the territory in the interests of the guano industry, and hopes thereby to build up a big trade in the fertilizer. Already many inquiries have been received by the company from various part of the territory and it is very evident that when guano is pinced upon the market in wholesale quantities that the use of the product will become immense. The carload just received is the shipment recently made from the island in the Syracuse sloop, which is to be utilized by the company pending the putting on of a line of barges. There were originally twenty tons on the lot. The price has been placed so low that the poorest farmer can afford to make some use of the fertilizer.

It is anticipated that Judge King will take up the case which involves the titles to the islands of Gunnison, Davis and Hat, sometime about the 5th of May for final disposition as far as his court is concerned. No matter which way it goes an appeal to the supreme court of the territory and probably to the Supreme Curt of the United States will follow. The Salt Lake claimants have decided to withdraw their men from the island, pending the hearing, and the steamer Taluia will leave for Gunnison within the next few days for the purpose of bringing away the parties now on the rocky speck.

MILLS NOW OPERATING.

The lands which are to come under the canal system of the Mt. Nebo Irrigation company are to be the Mecca today for a party of eastern prospective investors, which includes E. E. Crook, ex-mayor of St. Charles, Wis., who has tired of the middle east and has come to Utah to make his home. As has been the case with every other person who has visited the Goshen valley-for Mr. Crook has been all over the lands—that gentleman is an enthusiast on the subject of irrigation and the possibilities of the great stretch of country which is to be reclaimed by the irrigation enterprise being launched by Messrs. Reyton, Rognon and associates. Mr. Rognon will accompany the party, and the visit will probably consume two or three days.

Engineer O. R. Young and his corps of field surveyors, will take to the open on Thursday, and the running of the lines for the canals is to commence. Good progress is being made with the drain tunnel, and just as soon as it is finished the construction of the dam is to commence.

Up From the South.

President Melville, of the Snake Valley Land and Water company, is again in the city on special business. He will here await the return from the south of General Manager Holloway, in order that a meeting of the board of directors of the company may be held. The latest advice received from the seeme of operations was to the effect that the dam at the reservoir was just being finished up, while spiendid headway was being made with the construction of the canals.
